

Transplant centers approved for HOPE Act

Note: As of May 21, 2020, the OPTN Hope Act Variance expanded to include all solid organs and allows programs that meet all necessary research and experience requirements to recover and transplant all solid organs allocated by the OPTN. This table only displays programs approved for HOPE Act Variance participation as of November 1, 2020. The programs listed are those with current approval and not exhaustive of all potential programs covered by the variance.

January 31, 2024
