

**INTERIM REPORT OF THE  
OPTN/UNOS AD HOC DISEASE TRANSMISSION ADVISORY COMMITTEE**

**November 10, 2011**

The OPTN/UNOS Ad Hoc Disease Transmission Advisory Committee (DTAC) met via teleconference on November 10, 2011, and considered the following items.

1. The Committee briefly discussed abstracts it expects to submit for presentation at the 2012 American Transplant Congress. All authors were reminded of the November 23 deadline for submission to allow ample time for UNOS and HRSA review and approval prior to the December 2 submission deadline. All Committee members were reminded of the importance of review and feedback as drafts are circulated via email.
2. The Committee reviewed 18 potential donor-derived disease transmission events reported to the OPTN. Tentative classifications were assigned to each, but several require additional information from the CDC to finalize this process.
3. All members were reminded of a date change for the fall 2012 meeting. The standard Wednesday meeting date in Chicago was changed due to a conflict with another professional society meeting. The Committee will now meet on Friday, September 14, 2012.

Dr. Emily A. Blumberg, Chair  
University of Pennsylvania Medical Center  
Philadelphia, PA

Dr. Michael Green, Vice-Chair  
Children's Hospital of Pittsburgh  
Pittsburgh, PA

Shandie Covington  
UNOS Staff/DTAC Liaison & Sr. Patient Safety Specialist  
Richmond, VA
