(\*) = For cohorts with fewer than 10 patients, rates are imprecise and are not reported.

Multi-organ transplants are excluded.

Includes patients transplanted during the year and having reported data one-year after transplant. Time at risk covers the period from transplant date until the date of death or one-year anniversary of the transplant. See Technical Notes for further details.

**Table 6.7 (Continued)**  
**Patients and Annual Death Rates Per 1,000 Patient-Years at Risk, 1998 to 2006**  
**Rates for Recipients during First Year after Pancreas Transplant Alone (PTA) Transplantation**
