*Discussions of the full committee on June 12<sup>th</sup>, 2015 are summarized below and will be reflected in the committee's next report to the OPTN/UNOS Board of Directors. Meeting summaries and reports to the Board are available at <http://optn.transplant.hrsa.gov/>*

**Committee Projects**

**1. Redesigning Liver Distribution**

Following the September 2014 Liver Forum, the committee established three ad hoc subcommittees to further refine the metrics of access and disparity as well as ways to optimize distribution, to identify financial implications of alternative sharing methods, and to address transportation and logistical issues associated with broader sharing.

With the forum confirmed for June 22, at the Loew's Chicago O'Hare, Committee members were invited to attend an optional meeting to review the final data analyses and recommendations of each of the Ad Hoc Subcommittees. Additionally the Committee previewed the draft Forum materials, finalized the format and the agenda.

The agenda has been made available and may be accessed at <http://transplantpro.org/wp-content/uploads/2015-Liver-Forum-Final-Agenda.pdf>. The presentations have also been made available and may be accessed at <http://transplantpro.org/additional-information-draft-agenda-available-june-22-liver-distribution-forum/>. Should any changes be made, the final versions will be posted following the Forum.
