5. **UNet Enhancements Project Update**

Committee members provided UNOS staff feedback on UNet application enhancements.

Committee members had the following enhancement suggestions for DonorNet:

- Ability to view primary offers, all patients, and all centers
- Ability to view attachments
- Ability to decline offers after making a provisional yes
- Put a time limit on provisional yeses
- Ability to see where your transplant center falls on the list
- Create toggle buttons to make changing screens easier
- Ability for DonorNet to provide alerts when information has changed
- Create an "increased risk" donor field where centers can indicate if they will accept an increased risk donor
- Allow centers to specify which organs they are willing to accept (e.g. right kidney or left kidney)
- Create a toggle box next to organs that have been placed
- Update the DonorNet tutorials and provide more educational efforts, DonorNet competencies, and best practices on information that needs to be uploaded to DonorNet for more effective organ placement

The following suggestions were made regarding the Wait List application:

- ABO needs to be one of the first items centers are able to view

- Ability to have multiple patient files open at once
- Ability to sort the Organ Offer report by blood type
