There were N=236 forms that are not median score-adjusted and N=439 forms that were not reviewed due to auto-approval or withdraw prior to decision and are not included.
Recent Public Comment Proposals

Split Liver Variance

- Changed post-public comment
  - Only region 8

- A job aid will be available to help OPOs and transplant hospitals determine their options for allocation of the second segment when livers are split
Current Public Comment Proposal
Clarification of pre-existing liver disease

- Liver candidates may qualify for Status 1A if they have fulminant hepatic failure without pre-existing liver disease
- Currently unclear whether a candidate who received a prior liver transplant could ever qualify
- Clarification will allow prior recipients who otherwise meet criteria to qualify for Status 1A
